

LIBRECAD

Downloading and Installing LibreCAD on Desktop (03.02)

Aida Ejroushi William Raynolds Jared Koller ABOUT

2

WORKFLOW

1. Open the LibreCAD website through a web browser (recommend using chrome for this step): <u>https://librecad.org/</u>. Click the Download link from the top menu bar.

2. Select the from SourceForge link for either PC or Mac.

5. Once the installer opens, select I Agree after reviewing the License Agreement.

6. The next window allows you to select where to house the program

7. The installation process may take a few minutes to complete. Once finished, select the Close button.

8. To check if LibreCAD installed successfully, you can search for the program by typing in "LibreCAD
